## SUPERIOR FORMULATION = SUPERIOR RESULTS

**BioHex™ Shampoo Efficacy Study:** An independent study conducted by Iowa State University entitled, "Residual *in vitro* activity of canine hair against *Staphylococcus pseudintermedius* and *Malassezia pachydermatis* following a single antimicrobial bath."

At day 7, the zone of inhibition of BioHex Shampoo was 2 times larger than MiconHex +Triz® Shampoo and 2.9 times larger than DOUXO® Chlorhexidine Shampoo

## 21st Century Topical Management of Superficial Pyoderma

**Galia Sheinberg**  
DVM, DLACVD

*Dr. Sheinberg is a board certified veterinary dermatologist who works in a busy referral practice in Mexico City, Centro Veterinario Mexico. She consults on 240 to 260 dermatology cases per month. She successfully manages over 90% of her superficial pyoderma cases using topical therapy in lieu of antibiotics.*

### No systemic antibiotics were used on this patient!

**Case presentation (summary):** English Bulldog mix, 6 years old, weight 40.3Kg. Vet prescribed prednisone 1.3 years ago and the owners continued the medication at a dose of 25mg every day. He had severe polyuria (excess urine) and polydipsia (thirsty). On physical examination, calcinosis cutis (calcium deposits on skin), he had difficulty walking, pyoderma (bacterial infection) and inflammation.

**October 30, 2018** First visit - Prednisone was reduced and stopped after 3 weeks. Daily cleaning using BioHex™ Shampoo was prescribed. DMSO roll-on was applied every other day to help reduce calcinosis cutis. Apoquel® (Zoetis USA) 16mg BID was started and tramadol was used for pain management initially. A Hydrolyzed diet ProPlan HA® (Purina USA), was also initiated.

**November 15, 2018** Second visit - BioHex Shampoo was reduced to every other day, Rimadyl® 4mg/Kg SID 14 days was started, Apoquel 24mg SID was continued, and DMSO roll-on recommended three times per week.

**February 5, 2019** BioHex Shampoo was reduced to 2 times per week, Apoquel® reduced to 16mg SID, DMSO was discontinued.

**March 28, 2019** BioHex was reduced to a once a week whole body shampoo. Apoquel was used only when needed. He had lost 10Kg! He was maintained on hydrolyzed diet, as he had no more gastrointestinal problems and minimal itching.
