Choose the right stethoscope to help you perform at your best.

3M™ Littmann® Stethoscopes feature adjustable headsets with soft-sealing eartips. Select Littmann mechanical stethoscopes are designed with tunable technology to give you the ability to hear different frequency sounds by simply adjusting the pressure applied to the chestpiece. Get the acoustic performance, high quality and comfort you need with a Littmann stethoscope.

### Acoustic Performance Levels

- **6**: Ideal for taking blood pressure readings and making limited patient assessments.
- **7-8**: Hard-working, dependable, clinical tools for physical assessment and monitoring of your patients, one long shift after another.
- **9-10**: Provides outstanding acoustic sensitivity to help you perform detailed diagnostic auscultation. Useful in challenging and critical care environments.
- **10+**: High-performance auscultation. Hear more of what you need to hear with amplification of 24x, ambient noise reduction and optional connectivity.
