We’re a family business. We stand by our customers... stand behind our service... and stand with YOUR patient’s furry family members.

The Bickford name—standing for reliable calibration for over 40 years.

Our family name is on the Vapomatic® Vaporizer. So when WE calibrate, check and clean your unit—the unit we designed, built and tested—you know it will be done right.

Send us your Bickford Vapomatic® Vaporizer as part of your equipment maintenance schedule. We’ll calibrate it right away, generally within 24-48 hours of delivery.

No downtime.

If you like, we’ll first send you a free loaner Vapomatic® Vaporizer so you can maintain your surgical schedule. Once you receive it, ship your unit to us for recalibration.

We’ll recalibrate it.

Upon receipt of your Vapomatic® Vaporizer, we will:

• Disassemble the entire unit and clean all components,
• Replace all seals and O-rings,
• Replace the wick,
• Calibrate, reassemble and leak-test your unit,
• Provide full documentation of calibration and testing, and
• Return your Vapomatic® Vaporizer to you.

If you have a loaner, return it to:

AM Bickford, Inc.
12318 Big Tree Road
Wales Center, NY 14169-0201

Call or email us to set up recalibration of your vaporizer. If you’re pleased with the results, we can establish an annual calibration schedule. We’ll call you each year when it’s time.
