Super Exam LED

A combination of flexible drift-free positioning, excellent light output and LED energy-saving technology.
Super Exam LED

User-friendly and exceptional performance.

Delivering superior illumination to a focused area, Philips Burton’s Super Exam LED light is ideal for general examination.

**Usability**
- Flexible and precise covered spring-balanced arm is easy to position exactly where light is required
- The power and dimming switch is positioned near the handle for one-handed operation
- Easy access handle designed for quick positioning

**Performance**
- High performing energy efficient LED components are virtually maintenance free
- Recessed LED light source to reduce glare
- Fully dimmable for the perfect amount of light
- Industry leading 5-year warranty
- Night light, low light output mode to prevent disturbing patients

**Construction**
- SteriTouch® coating inhibits the growth of bacteria
- Powder-coated metal construction for durability
- Light source covered with tempered glass
- Smooth surface design for easy wipe down with hospital-grade disinfectants

---

**Horizontal Movement**
(lef**: Designed for maximum movement in the horizontal plane. Typical applications: Floorstand, table mounted.

**Vertical Movement**
(right): More vertical movement than arms found on large examination lights. The arm will always tilt forward to avoid collisions with the wall. Typical applications: Wall mounted, ceiling mounted.

---

**Floor and Table**

**Wall and Ceiling**
Drift-free K-arm provides better positioning than goosenecks and is easier to clean.
