Dr. Fritz GmbH has developed a completely head-mounted and modular system with the latest LED technology. It will allow even very young horses to be examined. Additional weight is just 950g on each side of the cheeks. The rider is not involved at all during the exam. Its recording and video transmission includes automatic audio. Mounting, fixation and dismounting is fast and uncomplicated. Service and replacements can be done immediately due to the modular construction.

- Self-holding fixation
- Mucus resistant video head
- Head mounted system
- Video and audio recording
- Direct video processing and recording
- No data reduction
- Remote controlled deflecting
- Wireless video control
- Manual and automatic flushing of the endoscope system
